Program/Plan:

Sem/Yr started Degree:

Expected Sem/Yr of Degree Conferral:

Undergraduate Degree:

Institution	Degree Conferred	Major	Minor	Date

Graduate Degree:

Institution	Degree Conferred	Major	Minor	Date

I have been admitted to the program to pursue an “in-flight master’s” degree. I will also submit a Master’s Program of Study Form. I understand that a particular course may only be listed once; no coursework can be counted toward both degrees (double-counted). Repeatable courses with different topics are considered different courses.

Per Doctoral Degree Program Policies, PhD students are required to earn six (6) CHS graduate credit hours prior to graduation by attendance in at least one summer term.

Preparing and following a planned degree program is the responsibility of each student under the supervision of the major professor. The student will be held to all university, college and departmental policies, and updates that occur within these policies, relating to degree requirements when executing their program of study. Please refer to your Departmental Handbook and the FSU Graduate Bulletin to see degree requirements.

FSU Courses Required for Degree:

Prefix	Course #	Title of Course	Sem & Yr Taken	Credits

**Per university policy, a doctoral student must register for a minimum of two dissertation hours every semester he/she is enrolled after passing the preliminary exam. He/She must also register for the appropriate number of dissertation hours in their last semester.*

Additional Courses Required but NOT Counted for Degree:

Prefix	Course #	Title of Course	Sem & Yr Taken	Credits
Total Hours:				

Supervisory Committee Approval:
